CUSTOM BLADE INFORMATION

Please provide the following information to make your blade.

- | | | | |
|----|---|-------|-------|
| A. | Thickness of material | _____ | _____ |
| B. | Width of material | _____ | _____ |
| C. | Length of material | _____ | _____ |
| D. | Distance to center of 1 st hole | _____ | _____ |
| E. | Centers from 1 st hole to 2 nd hole | _____ | _____ |
| F. | Centers from 2 nd hole to 3 rd hole | _____ | _____ |
| G. | Centers from 3 rd hole to 4 th hole | _____ | _____ |
| H. | Bolt size | _____ | _____ |
| I. | Distance from hole to top | _____ | _____ |
| J. | Distance from hole to bottom | _____ | _____ |
| K. | Plow bolts or carriage bolts | _____ | _____ |
| L. | Top or bottom countersink | _____ | _____ |

Depending on the length of the blade, there may be several more hole centers like E, F, and G. Most of the time these hole centers are the same, but you need to check each hole center because in some homemade blades each hole center may differ slightly. It is very important to make your measurements accurate.
